

GreyScale Tech is committed to zero e-waste into landfills and the proper disposition of identified focus materials and non-focus materials. We use the policy to manage End of Life electronics based on a hierarchy of “Reuse, Recover, and Dispose” Recycling.

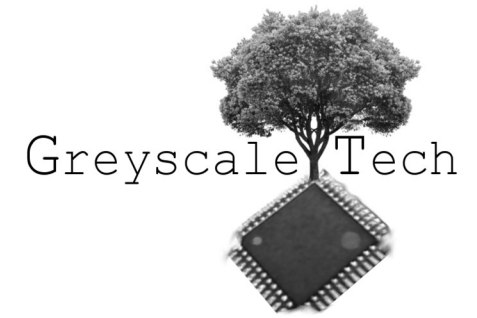

About Us

GreyScale Tech is a Reverse Logistics Company with a focus on Electronics Refurbishing and Recycling. We are here to help Businesses, Schools, and Consumers who have upgraded their current electronics and need a way to dispose of their old electronics safely with the environment in mind.
